In the United State of America seminaries [schools of theology or religious studies] are not required to apply for the extraordinarily expensive regional accreditation by an agency recognized by the U.S. Department of Education.

Galilee University was established to be a new paradigm of seminary with focusing on the Galilean Jesus called "Christ," not on the Christ the only Son of God from above. With a new vision of theological education Galilee University is exempt from the requirement of state certification and it has not sought accreditation.

As a new paradigm of seminary Galilee University is not accredited by a US Department of Education recognized accrediting agency.

As such, the degrees awarded are neither certified by the State of California nor are they accredited by any organization or regional agency. The content, however, of these degrees and the level of course instruction are both maintained at a high level, even meeting the criteria for State certification or organizational accreditation.

Galilee University is authorized by the federal government, **Students and Exchange Visitors Program [SEVP]** to issue I-20's to non-immigrant students to receive an education.

## **§1. GENERAL INFORMATION ABOUT GALILEE UNIVERSITY**

### **1. Founding Philosophy**

Galilee University was founded on the tradition of Christianity and brought to life by the educational vision of Dr. Jeremy J. Hong.

In August 1978, Dr. Jeremy J. Hong came to the United States in order to investigate the unique nature of Christianity among world religions. After completion of his studies at Southern Methodist University and Emory University, he arrived at the conclusion that the core of Christianity is the life and vision of the Galilean Jesus. According to his faith, Jesus' vision could be implemented here on earth, and thus it is possible for any person to live his or her life as Jesus did. After more than 20 years of teaching experiences in Seoul, Korea and Southern California, Dr. Hong progressed to another chapter of theological thinking. He now believes that we are in serious need of a new paradigm of theological education, focusing on a sensible Christian message, social credibility for Christian life, and user-friendly Christian values.

### **2. History**

The Non Profit Religious Organization, *Jesus Academy*, was incorporated in Los Angeles, California on June 24, 2003 with the motto, "*Meet the Galilean Jesus*," and then the school started to offer various forms of theological studies to the public, to students, and to ministers' group in the year of 2004.

Galilee University was established on September 5, 2006 as a religious exempt degree granting institution.

In the year of 2008, Galilee University was authorized by the federal government, Students and Exchange Visitors Program [SEVP] to issue I-20's to non-immigrant students to receive an education.

Galilee University is a team enterprise comprised of students, office staff, instructors, directors, and training partners within the community – all working together. We provide quality, affordable training and education, and we strive to accommodate working students' busy lifestyles by providing convenient schedules, with classroom and independent instruction provided by experienced instructors. The Galilee University assists individuals in learning new skills, enhancing previously obtained skills, and/or making a career change.

### **3. Mission Statement, Objectives and Expected Outcomes**

#### **Mission Statement**

The mission of Galilee University as a professional, graduate-level school is *to improve the Credibility of the Christian Story and Christian Life*.

#### **Vision Statement**

#### **Value Statement**

*To accomplish our mission, we commit to the following values as educational outcomes.*

#### **Understanding:**

Let students do their very best to understand their own Christian traditions, not merely to repeat and confess them.

**Critical Thinking:**

The “Three Big Questions” [*In what sense? On what ground? For what/whom?*] exercise in various contexts will lead students to a new level of critical thinking.

**Readiness to Learn from Others:**

Readiness for constant learning is essential to be ever-maturing people in this global and postmodern age. We must be ready to learn from everyone with self-confidence, respect and dignity, while valuing individual, cultural, and religious differences.

**Empowering to Commit:**

We will empower students to commit to the vision and cause by discerning it for themselves.

**Sustaining the Vision of Jesus:**

We will do our best to sustain the vision of Galilean Jesus, which was anchored on passionate criticism of the established and compassionate hospitality of the underprivileged, but which was so unfortunately and prematurely crushed under the violent and self-righteous wings of Christendom.

**Educational Objectives**

Galilee University(GU) assists students in:

- ▶ Constructing their personal vision revealed in the Galilean Jesus;

**Expected Educational Outcomes**

The curricula and activities are designed to aid in developing spiritually matured leaders who are intellectually informed vocationally skilled, and most importantly, compassionately committed for witnessing the sensible and soft gospel throughout the world by focusing in the following area:

All applicants are given equal consideration based on the applications submitted for each specific academic year. Previous award recipients may apply for consideration every year but they receive no priority over applicants who have not previously received an award.

## **TYPES OF AWARDS**

**The SCHOLARSHIP for ACADEMIC EXCELLENCE** – This scholarship is awarded to students who demonstrate academic excellence and financial need and who provide leadership and service to their community. Award amounts range from one-thousand dollars to as much as four-thousand dollars.

**The GST ADVISORY BOARD SCHOLARSHIP** – This award supports theological and educational pursuits. Each award given to a student is in the amount of one-thousand five-hundred dollars per academic year, but it can be more based on available funds.

## **FUNDING OF AWARDS**

The GU Advisory Board establishes the amount of money available for awards annually based on earnings on investments and other funds available at the discretion of the Board. The Scholarship Committee Chairman, with advice from Chancellor, is responsible for submitting a motion to the Board for funding of awards. Funding is approved no later than December, so the Scholarship Committee can determine the number and size of the awards for each academic year.

## **ANNOUNCEMENT OF AWARDS**

The Board determines the award recipients and amounts during the month of November. The recipients are notified in writing in early December. Applicants who do not receive an award are notified at the same time. A list of awards with recipient names, and size of award is provided to all the members of the Advisory Board, concurrent with the notification to award recipients.

Public announcement of awards is made as soon as possible after notification is sent to the recipients. The size of the awards is not revealed publicly. The GU website and other such publications are the primary means for public announcement. Each recipient's name, hometown and major are typically published with a photograph of the recipient. A copy of the award announcement letter is sent to the recipients, with a cover letter from the Board.

## **DECLINED OR RETURNED AWARDS**

Should an award be declined or returned, the Board may apply that award to another applicant if done before December 15 of the award year. Declined and returned awards are not available for distribution after this date and will be returned to the scholarship fund.

## **METHOD OF AWARD PAYMENT**

Awards are paid directly to GU. Award funds are not paid directly to a student except by the consent of the Board. Award payments are applied only to tuition, fees, books, supplies, equipment and other costs eligible under Internal Revenue Code section 117 and other applicable regulations. Funds are issued by check after the award recipient is enrolled in school, and the recipient returns a signed Information Request Form to GU.

## **MID-YEAR PROGRESS REPORT**

Each recipient is expected to provide a progress report to the Board during the second term of the academic year. This report includes a copy of the grade report from the first term, a copy of the student's class schedule for the second term and an indication of any change in the student's enrollment status. A request for this progress report is sent to the student in the month of January.

## §3. ACADEMICS

### 1. General Overview of Theology Programs

Galilee University(GU) offers the conventional (on campus) and non-conventional ("distance learning") methodology for all theology programs, and the instructional methodology is mainly accomplished through lectures, directed study, and internship. However the non-conventional (online) programs are not available for the international (F-1 visa) students.

### Taking Classes in the Quarter System

The Galilee University currently operates on the quarter system. A quarter system divides the academic year into four sessions: fall, winter, spring, and summer. Generally, the summer session is not required but can be used to complete classes that were not offered during the other sessions or to complete your degree in advance. With a quarter system, each sessions lasts approximately 10 weeks. Each quarter you can take three or four classes depending on how many credits each class is.

#### 1) *Master's Degree Programs*

The time frame for each Master's degree class is four (4) hours per week, for a total of ten (10) weeks. At the completion of forty class hours per course, 4 quarter units will be earned. Requirements of the completion of Master Programs are followings:

**Master of Divinity:** for Ordained Minister

120 quarter units [108 class units + 12 units of internship]

**Master of Sacred Theology:** for Lay Leader

72 units including Master's thesis

#### 2) *Doctoral Program*

The time frame for Doctoral degree class is four (4) hours per week, for a total of ten (10) weeks. After the completion of 40 class hours, 4 quarter units will be awarded. Requirements for the Doctoral programs are followings:

**Doctor of Sacred Theology:** for Christian Teacher

96 Quarter units = 72 quarter units + Dissertation (24 quarter units)

### 2. Class Schedule

The School publishes the class schedule prior to the beginning of each term of study. The class schedule lists every section of each class to be offered for the impending term, including the class name and number, days, time, instructor, meeting dates, and units.

### 3. Faculty and Curriculum

The Faculty members of Galilee University are selected not only for their educations, credentials, work experiences, but also for their dedication, enthusiasm and ability to motivate students to their highest level of academic achievement. All are graduates from "The Association of Theological Schools" accredited schools. Students are urged to meet with their instructor for assistance when needed. Curricula for all programs have been designed, not only to provide career skills, but to also qualify students for immediate employment opportunities in a relatively short period of time.

#### **4. Policy and Program Modification**

In keeping with the school philosophy of an immediate response to the needs of students and future employers, the school reserves the right to modify the course content, structure, and schedule without additional charges to the student and within the regulatory guidelines. Information contained in the Programs becomes an official part of the catalog. Galilee University reserves the right to amend the catalog and program as needed.

#### **5. Books and Supplies**

An itemized cost of books and supplies used in instruction is located in Section 5 and includes the total cost of the program. The student must provide his or her additional supplies such as notebooks, notepaper, highlighters, pens, pencils and erasers etc.

#### **6. Attendance**

Consistent attendance is essential to the overall effectiveness of the training a student receives at Galilee University. This process is as important as learning, since future employers emphasize punctuality and attendance as top job requirements. Students are required to attend all scheduled classes regularly and punctually and attend at a minimum 80% of the time allotted for class.

##### ***6-1. Maintaining Status of International Students***

In order to maintain your F-1 visa status, Students must:

- Keep your passport valid at all times.
- Attend the school and degree program indicated on your I-20.
- Request a new form if there is any change in the Student's degree level or major.
- Carry a full course of study (8 credit hours for all graduate level students)
- Keep personal I-20 form valid at all times. Check the expiration date on first page to make sure that it is **always** valid. Request a new form if any major changes occur in your situation (e.g., changes in source of funding, marital status, major, degree program).
- Notify the University of each change of local address within ten days of the move

Follow the required procedures (with the help of the Designated School Official/International Advisor) when

- Applying for extension of stay
- Transferring to or from another school
- Applying for Optional Practical Training (OPT)
- Withdrawing from the school

Refrain from off-campus employment without U.S. Immigration and Customs Enforcement (**ICE**) or school authorization. Off-campus work permission is approved **ONLY** by U.S. Immigration and Customs Enforcement (**ICE**) in case of an extraordinary circumstance. It is illegal to work without authorization and Students are subject to deportation.

##### ***6-2. Attendance Probation***

Galilee University(GU) recognizes that there are times when a student is unable to attend class, arrives late or leaves early. The attendance policy allows for these circumstances, while ensuring that each student attends class a sufficient amount of time to master the subject material. A student will be placed on attendance probation if he or she is below 80% attendance in any given class. Frequent tardiness and/or

unexcused absences are cause for placing a student on probationary status.

**Registrar's Office** will notify a student and his/her academic advisor when he/she misses the second class (excused and/or unexcused). The notification is sent to the student via email. However, students are responsible for monitoring their own attendance records. Failure to receive the notification does not negate their attendance status.

### **6-3. Attendance Requirements**

Students must maintain an attendance rate of 80% in all courses and programs offered at GST. Students are required to call the registrar as soon as practical on the first day of absence and give an estimate of the duration of the absence. Long term absences for medical reasons will require a note from a doctor or health care professional.

### **7. Leave of Absence**

Students may be granted one leave of absence (LOA) per 12-month period for certain specific and acceptable reasons. Students may also request an administrative leave when a course that is needed is not available. A LOA shall be reasonable in duration, not to exceed 120 calendar days. All LOA's must be in writing and addressed to the Office of Admissions. The request must be accompanied by written documentation from the appropriate person and/or agency. The dean will approve or deny the request in writing.

If a student fails to return on the scheduled return date, he/she shall be terminated from the training program. One subsequent leave of absence may be granted if the leave of absence does not exceed 30 days and the school determines that it is necessary due to unforeseen circumstances. Subsequent leaves of absence may be granted for jury duty, military reasons, or circumstances covered under the Family and Medical Leave Act of 1993. The school must document the reason for each subsequent leave of absence.

### **8. Re-entry Policy**

Students who have been terminated for violating the attendance policy may be re-entered through the appeal process.

### **9. Effects of Leave of Absence on Satisfactory Academic Progress**

Students who are contemplating a leave of absence should be cautioned that one or more of the following factors might affect their eligibility to graduate within the maximum program completion time:

Students returning from a leave of absence are not guaranteed that the course required to maintain normal progression in their training program will be available at the time of re-entry. Students may have to wait for the appropriate course to be offered. Students may be required to repeat the entire course from which they elected to withdraw prior to receiving a final grade.

### **10. Grading Policy**

Evaluation of student achievement will be based on meeting the objectives for each class. At the beginning of each class, the instructor will provide the student with a syllabus identifying the objectives and grade determination criteria. Students must achieve a cumulative grade point average of at least 70%. A student who fails a class is permitted to continue in her/his studies as long as satisfactory progress is maintained. In a course in which a failing grade has been received, a student who has feasible reasons may ask the instructor to grant permission to take a re-examination, or complete a reassignment of sufficient quality

to raise the grade to a passing score. Such work must be completed within 21 days after notification of the failing grade. If the grade is raised to a passing grade, the student receives credit for the course, but no grade points are counted into the calculation of the student's Grade Point Average (GPA). If the student repeats a course after having received an F grade initially, the previous F grade remains factored into the Grade Point Average (GPA), as does the new grade.

### 11. Grade Point

The following systems of grade points are used to evaluate a student's level of achievement. A student's general standing is the result of the total number of grade points earned, divided by the total number of semester hours taken.

<b>Grade</b>	<b>Points</b>	<b>Grade</b>	<b>Points</b>
A	4.0	A-	3.67
B+	3.33	B	3.0
B-	2.67	C+	2.33
C	2.0	C-	1.67
D	1.0	F	0
I	*Incomplete	WP	Withdraw Passing
WF	Withdraw Failing	P	Pass (challenge)
AU	Audit (no credit)	CR	Credit

#### \*An Incomplete Grade:

An incomplete grade may be given for incomplete class assignments and/or examinations only with permission from the instructor. The 'I' grade will be converted to an F grade if the incomplete is not made up within one week after the following classes begin.

### 12. Make-up Work

Absences from class cannot be made up. However, students will be required to make up all assignments, examinations or other work missed as the result of any excused or unexcused absence. Upon returning to school, the student must immediately arrange to meet with the instructor regarding missed requirements. If the instructor approves, the student must make up assignments within five (5) days and examinations within two (2) days of returning from an absence. The instructor may assign additional outside assignments if deemed necessary.

All arrangements are subject to approval by the Academic Dean.

### 13. Satisfactory Academic Progress Requirement

#### 13-1. Academic Progress

All students must maintain satisfactory academic progress in order to remain eligible to continue as students in the school. All students are considered to be making satisfactory progress when they begin school and during any probationary period. This includes, but is not limited to: meeting minimum standards for grades, work projects, etc.

#### 13-2. Requirements

Students must show satisfactory academic progress. In order to maintain satisfactory academic progress, students must:

The minimum cumulative grade point average attempted at Galilee University is 2.0 for the graduate programs.

Units of credit that are transferred from other institutions must be at least a 2.5 average on a 4.0 scale.

### **13-3. *Unsatisfactory Academic Progress Requirement***

A student who fails a course, or whose cumulative fall or spring term grade point average falls below C will be placed on academic probation. In this circumstance, the student will receive written correspondence from the Academic Dean outlining a plan of study designed to improve his or her academic performance. Such a plan of study may include a reduction in non-academic activities, special tutoring, remedial work in reading and writing, or such other provisions as may seem appropriate in each case. The student is required to follow this plan of study until he or she is removed from probation. The student is automatically removed from probation upon successfully completing an academic term in which none of the conditions listed in the first sentence of this statement occurs.

### **14. Probationary Status**

The following provisions describe Academic Probation:

- A student with a GPA of 1.67 or lower, after completion of his or her first quarter, with less than 24 credit hours completed, will be on academic probation.
- A student whose cumulative GPA is below 2 to 1.68 after the completion of 24 credit hours will be on academic probation.
- A student on academic probation will be required to meet with the registrar before the beginning of the following quarter or withdrawal will result.

### **15. Program Changes**

Students wishing to add or drop a course after registration must obtain a "Request for Course Change" form from the Registrar, and secure a signature from the instructor teaching the course. Changes must be made by the deadline for program changes not posted in the academic calendar. Courses dropped in this manner will not be recorded on the student's permanent record.

For dropped courses, refunds are calculated from the date the ADD/DROP form is postmarked, if mailed, or received by the Registrar. Failure to officially drop a course will result in full tuition charges for the course.

The difference in tuition resulting from a reduction in the number of units registered will be refunded to the student in accordance with the posted refund schedule. Conversely, the student will pay the difference in tuition when the number of units is increased.

After the deadline for program changes, students may drop a course only with the permission of the instructor of the course, and will receive a "W" grade. After the end of the deadline for program changes, all requests for dropping courses must be in writing and approved by the Registrar in order to receive a "W" grade. Students who do not officially drop a registered course, and do not attend the course, are subject to a failing "WF" grade.

## **16. Audit to Credit**

Once registered as an auditor, a student may not change to credit status unless such a change is requested prior to the deadline for adding a course specified in the academic calendar. A student, who is enrolled in a course for credit, may not change to audit status after the last day of class to add or drop courses.

## **17. Repetitions**

Repetition of courses for which substandard work has not been recorded shall be permitted only upon advance petition of the student, and with the permission of the Academic Dean based on a finding that circumstances exist which justify such repetition. In such repetition, under special circumstances, the student's permanent academic record shall be annotated in such a manner that all work remains legible. Grades awarded for repetition under special circumstances shall not be counted in calculating a student's grade point average.

Students may petition for approval to repeat courses up to a total of 15 units in which substandard grades (less than "C") were awarded. Students may repeat the same course only once for this purpose. Upon completion of a course repetition, the best grade earned will be computed in the grade point average, and the student academic record so annotated. No specific course or categories of courses shall be exempt from course repetition.

## **18. Course Challenge Examination**

Students may challenge courses by taking examinations designed to verify the student's knowledge of the subject matter. In order to earn credits by challenged examinations, students must first obtain the "Petition for Challenge Examination" approval from the Registrar, who will assign a faculty member to admit or the challenge examination. Students must also pay the course challenge examination fee prior to taking the examination.

Petition for Credit by Examination will be granted to regularly enrolled students to obtain credit by challenge examination in subject matters in which they are qualified through non-traditional education or experience, and for which credit has not yet previously been granted for any similar or advanced course.

The examination may include written, oral technical skills, or a combination of each, and will be sufficiently comprehensive to determine that the student possesses essentially the same knowledge and/or skills as those students who successfully completed a similar course offered at Galilee University. The letter grade of "P" will be awarded to those who pass the course challenge examination. However, those students who fail will not receive a grade, and there will be no record of the non-passing of the course challenge examination on the student's permanent record.

Credit by challenge examination shall not be allowed for the purpose of earning a higher grade for courses previously taken. The only way to earn a higher grade for earlier attended courses is to repeat the course and pay the normal course unit fee.

## **19. Summary of Termination / Reinstatement Policies**

Those who fail to maintain the required policies described under the sections related to satisfactory academic/attendance progress requirements, leave of absence, conduct, dress code, substance abuse and/or financial obligations included within this catalog may be subject to termination. Examples include, but are not limited to, the following:

- ▶ Violation of the attendance policy;
- ▶ Failure to maintain satisfactory academic progress;
- ▶ Violation of personal conduct standards; and
- ▶ Inability to meet financial obligations to the school

## **20. Reinstatement Policy**

Students who have been terminated for failing to maintain satisfactory academic progress may be reinstated through the appeal process. Upon reinstatement, the student will be placed on probation. At the end of the first module after reinstatement, the following standards must be achieved: a cumulative GPA of at least 2.0 and a cumulative attendance of 70% - 85%.

## **21. Expulsion**

The following practices are causes for expulsion:

▪**Cheating** – The unauthorized use of study aids, examination files, and other related materials, and receiving unauthorized assistance during any academic exercise.

▪**Fabrication** – The falsification or invention of any information in an academic exercise.

▪**Facilitating Academic Dishonesty** – The intentional helping or attempting to help another student to commit an act of academic dishonesty.

▪**Plagiarism** – The intentional or conscience representation of words, ideas, or work of others as one's own in any academic exercise.

## **22. Withdrawal Policy**

In order to withdraw, the student must complete an official withdrawal form and file it with the school's President.

## **23. Appeals Process**

Re-admission to the school following withdrawal for any reason will be at the discretion of the Academic Committee. A student may petition in writing for reinstatement within one year of dismissal. The petition must be filed at least two weeks before the beginning of a module. The Committee will review the student's previous academic admission records and his/her current situation in making a decision for reinstatement. The student will then be notified of the Committee's decision. Students accepted for re-admission will be entitled to the same rights and privileges and are subject to the same regulations as any student. Students will not be entitled to appeal if they are terminated for exceeding the maximum program completion length.

## **24. Student Records**

Student records, which include grades, attendance, prior education and training, personal achievements, etc. are kept for a period of not less than five (5) years on the school premises. Once a student has graduated all files re maintained in the school file management system. All Academic files and transcripts are kept for 50 years.

Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

Student				

The School will refund money collected from a third party on the student’s behalf, such as Veteran’s Benefits or WIA funds, if the school cancels or discontinues the course in which the student is enrolled, or if the student drops out. If any portion of the tuition was paid from the proceeds of a third party, the refund will be sent to the lender or agency that guaranteed the funds.

Any remaining amount will first be used to repay any student financial aid programs from which the student received benefits, in proportion to the benefits received. Any remaining amount of money will be paid to the student.

If the student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund. ### **PC393 Spirituality Formation and Christian Education**

Because the primary overarching competency to be achieved in graduate theological education is the development of spirituality in each student, it is important to note the relationship between Christian education and Christian spiritual formation.

The term "Christian spiritual formation" speaks to the holistic formation of a Christian person into the character of Jesus. This holistic formation includes an experience of God in Jesus that transcends knowledge and, at times, language. Christian education on the other hand, refers to a body of knowledge thought essential to the development of a well-rounded Christian.
